**Dr. Don C. Forrester**

Biblical Leadership in the 21<sup>st</sup> Century is an honest look at the challenges facing today's ministry leader. What makes a leader? What role does vision and integrity play in leadership? How does a leader balance the need for administrative skills and organizational structure with a genuine strategy for change and growth? How does the leader interact with staff and volunteers to develop a ministry while bringing each participant to a life of fruitful service? Where do we get the resources for effective ministry? Ultimately, where do we find the necessary time and motivation? This course will provide a thoughtful approach to leadership issues of modern ministry with the goal of helping leaders develop a plan of action.

### **CM 506 Christian Ethics in a Post Modern Society** **1:00 p.m.-5:00 p.m. (2 credits)**

**Pastor Mickey Creed**

Our contemporary world is constantly changing. The cultural chaos created in today's society has forced Christians to be aware of social ethics. Not only is society divided on these issues, but much of the Christian community is also divided. What does the Bible say about contemporary ethical issues? God's truth must be one's standard when one is confronted with various moral questions. A Christian philosophy of social ethics is imperative in today's society. This course will analyze such issues as abortion, euthanasia, homosexuality, capital punishment, biomedical issues, civil disobedience, marriage and divorce. An evaluation of these issues from a Biblical perspective will help the student to develop guidelines and convictions as he lives in our contemporary society.
