

WHY ONLINE?

FIVE REASONS YOU SHOULD CONSIDER ONLINE COLLEGE

“ *I chose Veritas because I could continue serving where Christ placed me and still receive a quality Bible-based education and tools to better serve His body.* ”
- Miles M.

Keep serving in your current ministry.

“ *I want to serve where I am, but I really want to further my education in Bible college. I found both at Veritas!* ”
- Morgan R.

College doesn't have to mean leaving your local church and the ministries you're invested in.

Continue learning from your current pastor, serving alongside your friends and family.

College no longer has to determine your location.

Quality, Christian education is available to you wherever God has called you.

“ *I chose online so that I could continue to work on the mission field while I furthered my education.* ”
- Tim G.

Stay plugged in to your community at home.

“*I chose online education because I have a wife and three kids, I am the associate pastor of my church, and I love the people of my church and community too much to move away for college.*”
- Shawn H.

Online education allows you to continue to invest in the friendships you currently treasure.

Surround yourself with the support you need to accomplish what God has called you.

Whether it's family members, childhood friends, or spiritual mentors, stay connected with the people who know you best and who can encourage you to reach your goal.

“*I chose online education because it allowed me to continue serving in various ministries at my church while pursuing a Bible degree.*”
- Lynsey T.

Save Money.

“ *I chose online so that I could jump right into the ministry that God was currently calling me to!...plus I saved A LOT of money and graduated debt free!* ”
- Morgan M.

We get it. College isn't cheap.

While we've intentionally kept our tuition costs low, we know it still takes financial sacrifice.

Maximize your finances by eliminating unnecessary costs associated with attending college on campus.

Keep your job and even work full-time while still taking classes online by tackling your course work at the time of day that works best for you.

“ *VBC allowed for the flexibility to go to school, continue to work full time, and use my newly gained biblical knowledge at my local church.* ”
- Darin B.

Pursue education at your own pace.

“
I've had the flexibility to travel to over 7 different countries doing mission work while attending Veritas. I love that I can do school wherever I have an internet connection.
”

- Garron E.

Have the freedom to take missions trips or work summer camp by personally structuring your studies to fit around these transformative experiences.

Determine the class load and schedule that will help you be most successful.

Work toward a master's degree during your summer break as a teacher or take a class while still in high school through our dual-enrollment program.

“
I like the fact that I can directly apply what I learn in the classroom into ministry each week as a hands on learner.
”

- Garron E.

Manage your God-given roles.

“ I have a wife, three kids, a full time job, and I work at my church. It is next to impossible to pack up and move away to Bible college. I chose Veritas because it gave me the best and most affordable way to study and prepare for ministry. ”

-Denny A.

Are you a missionary? Stay-at-home mom? Full-time pastor? It is often not realistic to move a family across the country in pursuit of Bible college, so why not let us come to you?

Rather than relocating, pressing pause on a career, or using valuable time to commute, learn right where you are from qualified instructors and receive an accredited degree.

Become better equipped without walking away from the calling God has placed on your life.

“ I am a missionary's wife and sometime soon we will have to return to the States to report. Online college makes it possible for me to study wherever I am at. ”

- Pam P.
